

Estimate the Project Utilizing the PERT method. (Backlog next page)

- Create a PERT table in MS Excel
- Just estimate the Epics. You can shorten the epic to a few key words for the table
- An individual's normal schedule is to work 8 hours a day for 5 days a week, Monday through Friday
- Utilize "Workdays" as your time unit (1=1 Workday = 8 hours)
 - If you think something is a half day, use 0.5
- In your file, answer the below questions a few lines below the PERT table
 - What's the total number of expected work weeks that it will take to complete this project (may calculating 1 decimal place)?
 - Your client wants to know how quickly they can get an MVP, with Must-Have requirements only. The contract starts on March 1st. You have a 2-person team developing full-time on this project, while working on their normal schedule. For this question, do not account for employees for holidays, instead of treating a holiday as a normal workday. On what specific date (ex: April 10th) will the MVP be done?

Find Movies to Watch	9	12	16	12.2
View movie information	6.5	10.5	15	10.6
View actor information	4	7	11	7.2
Preference Management	4.5	7.5	12	7.8
Watch a movie	5	9.5	14	9.5
				73.9
Total Expected Work Weeks: 14.8 weeks (73.9 Work Days)				
MVP Completion Date: April 20th (35.7 Work Days)				

Initial High-Level Product Backlog of a Netflix web app:

As a user, I want...

- View the homepage
 - An animated splash screen of the Netflix logo when opening the app
 - To view marketing information, so that the user is encouraged to use the app
 - To view navigational options to register and login
- Account Management
 - To Sign up for an account
 - To Login
 - To Logout
 - To perform a Forgot password request
- Subscription Management
 - Enter credit card information
 - Select a subscription plan
- Profile Management
 - To create one or more profiles, so that the content is tailored to me
 - To edit profile
 - Delete a profile
- Find Movies to Watch
 - Browse listings of movies
 - Filter movies by genre
 - View listings of movies that I've marked as favorites
 - Enter a title into a search mechanism
- View movie information
 - To be able to view title of the movie
 - To be able to view run time, genre, rating (G, PG, PG-13, R, etc)
 - To be able to view a list of actors
 - Watch previews of titles, before watching the whole movie
 - Mark a movie as a favorite
- View actor information
 - To be able to select an actor from a movie to see their acting profile
 - To view a picture and a bio of an actor
 - To be able to view a list of all the movies this actor was in
- Preference Management
 - Set movie/genre preferences
 - View recommended movies based on my preferences
- Watch a movie
 - Play a movie
 - Pause a movie
 - Rewind a movie
 - Fast forward a movie
